EN

A light, stable clothes rack, eye-catching first and foremost in its beautiful combination of solid oak with the industrial cool of concrete. But then you will notice the careful sanding, which is responsible for the precision of the heart-shaped notches, and the natural texture of the wood. The Tee clothes rack, designed by Jan Padrnos, is not only beautiful, it is supremely practical, allowing even the smallest members of the household to hang up their coats! It will hold a surprising amount of clothing.
